

# LOVE WILL FIND YOU THERE

(Capo Third Fret)

**G** **Em**  
Hey Friend I see your eyes are tired  
**C** **G** **D**  
and you don't know what to do  
**G** **Em**  
it seems your heart has lost it's fire  
**C** **G** **D**  
and all your days are painted blue  
**G** **Em**  
Oh your soul is growing weary  
**C** **G** **D**  
from this restlessness inside  
**G** **Em**  
but there's no strength for the journey  
**C** **G** **D**  
so the best you can do is hide

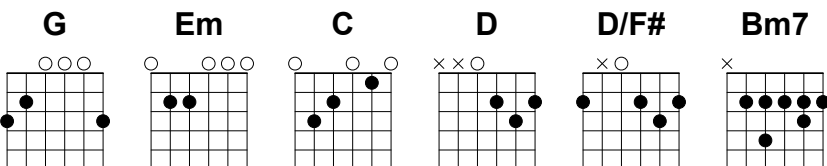

(chorus)

**G** **D/F#** **Em7/D** **Bm7**  
But don't let hope slide down your slide  
**C/D** **Em7/D** **A7/D** **D**  
don't let joy just swing away  
**G** **D/F#** **Em7/D** **Bm7**  
don't let hate inside your mind  
**C/D** **Em7/D** **A7/D** **D**  
don't let fear take play away  
**G** **D/F#** **Em7/D** **Bm7**  
don't you run, no don't you hide  
**C** **D** **G** **Em** **C** **G** **D**  
for love will find you there

It seems your "want to's" stuck in neutral  
Between what was and can not be  
Your waiting for another miracle  
to rise above the things you see  
But the weight of life it is heavy  
and it holds your world down

from stepping on into the future  
from getting up from off the ground

Well life is not what I expected  
It's thrown me a curve or two  
But when I've stopped and I've reflected  
You know the changes I'd make are few  
For in the shadow of my darkness  
In the valley of my despair  
I find there's hope for the lonely in heart  
and hope is knowing that love is there
